few days in the greater part of the country east of the Rocky Mounains.

"It is probable," said the weekly bulletin to-night, "that general frosts will occur the first half of the week in the great Ceutral Valleys, the Eastern States and the interior of the South. Nominal temperatures will prevail on the Pacific Slope. There will be rains Monday in the Eastern States, the upper Ohio Valley and the Great Lakes region; otherwise the weather during the next several days will be generally fair east of the Rocky Mountains.

"The next disturbance of importance to cross the country will appear in the Northwest on Tuesday or Wednesday, move eastward and cross the Great Central Valleys Thursday or Friday and the Eastern States near the end of the week, This disturbance will be preceded by a general change to high temperature, be attended by rains in the Southern and Middle States east of the Rocky Mountains, and rains and snows along the Northern borders. It will be followed by colder weather, which will appear in the Northwest about Thursday. There are no indications of a disturbance in the West Indies."

Gets Term of Three Years for Assault and Robbery of R. E. Gordon.

R. E. Gordon.

Norfolk, Va., October 19.—The jury in the case of Sidney Preson Dwyer, tried for assault and robbery of R. E. Gordon, an assistant cashier of the Seaboard Air Line Rallway, brought in a verdict at 11:45 o'clock Friday night, after four hours' deliberation in the Court of Hustings, finding Dwyer guilty of assault, and fixing his punishment at three years in the penitentiary. The prisoner was immediately sentenced, the defense being given time in which to file a bill of exceptions.

# WILL NOT DESERT WILSON DEFENDS

Washington, October 19 .- Despite persistent reports to the contrary, William G. McAdoo, Secretary of the Treasury, is confident that not a sin-gle national bank in the country will retire from the National Banking tem as a result of the working of the proposed democratic currency act. In a letter to R. D. Duncan, vice-president of the State National Bank, of Little Rock, Ark., the secretary has replied to criticisms of many phases of the currency bill, and especially has he expressed himself on the proposition that the national banks will desert the system if the bill is enoughed.

sert the system if the bill is enacted.
The main object of the secretary was to correct what he termed as inconsistency in a circular issued by the bankers in St. Louis in reference to the 2 per cent bonds. The circular said McAdoo was one of numerous of its kind, usually distributed privately and calculated to cause apprehension about the 2 per cent bonds.
"I think you may take it for grant-
